APPLICABILITY:

This rate is applicable to all uses of electricity at a single location. Such service shall not exceed 349 kW. All electricity delivered hereunder shall be measured through one metering equipment, except that, where the Company deems it impractical to deliver electricity through one service, or where more than one meter has been installed, then the measurement of the amount of electricity consumed may be by two or more meters. All electricity supplied shall be for the exclusive use of the customer and shall not be resold. With the approval of the Company the customer may furnish electricity to persons or concerns who occupy space in the building to which service is supplied hereunder, but on the express condition that the customer shall not re-sell, make a specific charge for, or remeter (or submeter) or measure or control the use of, any of the electricity so furnished.

Notwithstanding the foregoing, Schedule 23 may be used in conjunction herewith and separately billed.

RATE - Per month:

DISTRIBUTION CHARGES:

CUSTOMER CHARGE	\$31.92*
DEMAND OVER 2 kW	\$ 8.03 per kW
ENERGY CHARGE	\$ 0.00000 per kWh

DEFAULT SERVICE

As Per Default Service Tariff

THIRD-PARTY SUPPLY

As Per Contract

*Where electric service is rendered on an unmetered basis the Customer Charge shall be \$15.96 per month.

DETERMINATION OF DEMAND:

The Demand shall be determined by meter, monthly, and shall be the highest 30-minute kilowatt registration during the month, determined to the nearest one-half kW. When two or more meters are installed for billing under this rate as above provided, the Demand shall be the arithmetical sum of the demands separately determined, whether coincident or not.

RATE ADJUSTMENTS

This rate will be adjusted as provided in the Company's Demand Side Management and Renewable Energy Adjustments.

TRANSITION COST ADJUSTMENT

The Transition charges and terms under this rate includes a Transition Cost Adjustment Charge set in accordance with the Company's Transition Cost Adjustment.

TRANSMISSION COST ADJUSTMENT

Transmission service charges for all customers taking service under this rate shall be set in accordance with the Company's Transmission Cost Adjustment.

MINIMUM MONTHLY CHARGE:

The minimum charge is the customer charge.

MISCELLANEOUS CREDITS:

Transformer Ownership Credit: If the service transformers and associated equipment, except metering, are furnished by the customer, a credit shall be applied to the bill equal to \$.20 per kW.

Issued per Order in DTE ~~01-101~~
dated ~~December 27, 2001~~

Metering Credit: The Company may meter the electricity delivered to the customer on the higher voltage side of the service transformers, in which case the number of kWh so registered shall be reduced by two (2) percent.

TERMS:

The Company's Terms and Conditions in effect from time to time, where not inconsistent with any specific provisions hereof, are a part of this rate schedule.

TERM OF CONTRACT:

Customers served under this rate must provide the Company with six months prior written notice before installing, or allowing to be installed for its use, a non-emergency generator with a nameplate capacity greater than that in place on the Customer's location as of March 1, 1998. Also, customers receiving service under this or superseding rate schedule may not change to another rate schedule within the first 12 months of the service.
